Media Structures

All About You

AGS Media Structures are the experts in hoarding, site screening, temporary platforms and support structures.

AGS Media Structures offer screening, hoarding, temporary structures and platforms to everyone from the construction and civil engineering industries to the entertainment, advertising and marketing industries.

- ⇒ Preliminary Estimates
- ⇒ Design & Engineering
- ⇒ Access Consultancy
- ⇒ Supply, Erect & Dismantle
- ⇒ Project Management
- ⇒ Labour Management

Hoarding and screening provides an ideal medium to identify the contractor or as a vehicle for advertising or marketing. It is essential in maintaining security and is critical to the Health & Safety in and around a site.

It is not enough just to erect a hoarding and walk away, AGS Media Structures will initially design the project, build and maintain all manner of hoarding and screening using conventional materials selected to suit the situation. AGS offer paint finish in your colours, branding, full trim, banners and advertising. We are happy to discuss any proposed scheme with you and offer a variety of solutions.

AGS Media Structures design to your brief, build and maintain hoarding and screening using the most beneficial and appropriate materials to suit your needs. AGS can put your mind at rest by ensuring that all of your temporary support structures and hoarding are safely built, maintained and dismantled with your needs in mind, after all it's -

All About You

AGS Media Structures, as our name suggests, provide screening, hoarding, protection and access solutions for a whole array of projects from internal fit-outs to whole redevelopments for the construction industry through to facilities management, media and corporate events. We build hoardings, platforms, towers and gantries with a variety of uses for example camera crew through to theatre staging and exhibitions. We shroud and screen scaffolding for site protection, for advertising and for marketing the gems hidden beneath.

Construction & Civil Engineering

AGS Media Structures adopt our corporate philosophy and approach each project with the aim to provide a cost effective design and a solution that is fit for purpose. AGS make their systems adaptable and often exceeding the expectations placed on them. AGS like to provide a complete integrated services into your project. We will protect and promote your site, whether all that you require is a statutory sign board, hoarding or a whole site promotional scheme we will help.

Demolition

Starting with a brown field site presents its own challenges. How do you making something that may appear unsightly look presentable, show what the site will eventually become, use the site as a sales medium, protect the public before and during the works? By relying on AGS Media Structures to provide the most effective solution, naturally.

Refurbishment & Restoration

Restoration and refurbishment is about execution in what can be difficult circumstances. Protecting the site and what is on it can be awkward with, for example, constant adaptations to hoarding. AGS aim to approach this by using a method that really is suited for their client's complex needs. An entire existing building provides a wonderful canvas with which to show either what is to be or even to advertise.

Advertising, Marketing & Special Projects

AGS Media Structures will build platforms, towers and gantries for temporary use by a variety of media based and other businesses. Advertising is all about us, it is everywhere we look, it could be put to good use. If you are putting on an event or exhibition that requires staging, or have a site that may need hoarding or your client wants their logo 15m high on the face of the structure, AGS Media Structures have the solution for you, after all it's - All About You.

AGS Media Structures are actively involved in maintaining the highest standards of safety, customer care and service.

After all it's...

All About You
